

With this amendment, no claims have been amended or cancelled. Claims 4-39 have been added. A detailed listing of all claims that are, or were, in the application, irrespective of whether the claim(s) remain under examination in the application, is presented, with an appropriate defined status identifier. Thus, claims 2-39 are pending in the application. Additionally, Applicant would like to thank Examiner Lim for allowing claims 2 and 3 in the Notice of Allowance dated March 3, 2008.

Allowed claims 2 and 3 are both independent. New claims 4-11 depend from allowed claim 2 while new claims 12-19 depend from allowed claim 3. Support for these features can be found throughout the specification and in at least dependent claims of the grandparent application 08/735,727, now U.S. Patent No. 6,052,717. New claims 20-28 are computer readable medium claims based on claims 2-19. New claims 29-37 are means plus function claims based on claims 2-19 while new claims 38 and 39 are system claims based on allowed claims 2 and 3, respectively. No new matter has been added.

In the event the U.S. Patent and Trademark Office determines that an extension is required, applicant petitions for any required relief including extensions of time and authorizes the Commissioner to charge the cost of such petitions and/or other fees due in connection with the filing of this document to Deposit Account No. referencing docket no. 21207/1208679-US3.
